

Parkinson's Disease!

Currently There Are:
0 Curative Therapies!
&
0 Reliable Diagnostics!

Until Now...

Introducing...

NEXGEN-PD

A Horizon Europe Initiative

Developing Revolutionary New Vaccines and Diagnostic Tools For Parkinson's Disease

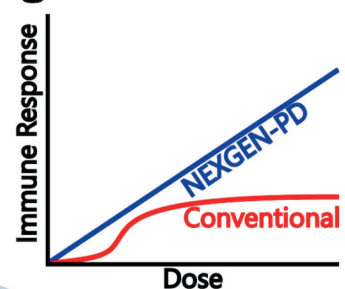

New
Vaccines!

2

Applied Intradermally to
Immune-Rich Tissue

3

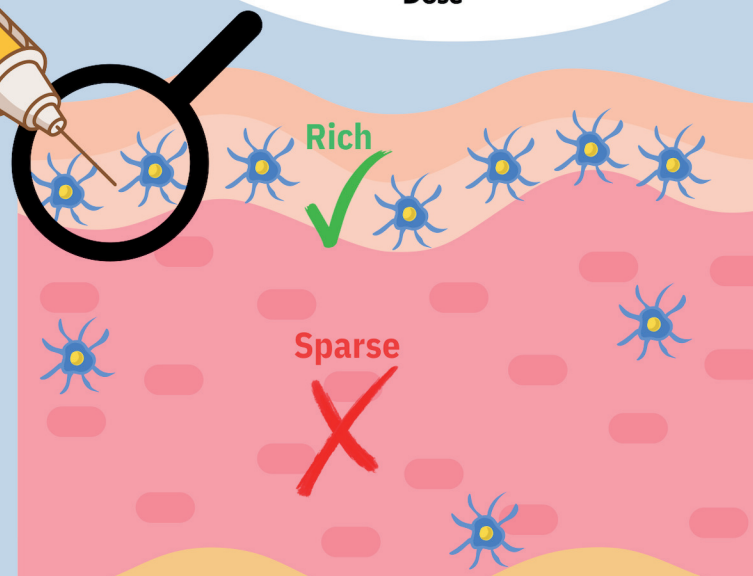

Inducing Substantially
Stronger Immune Responses

1

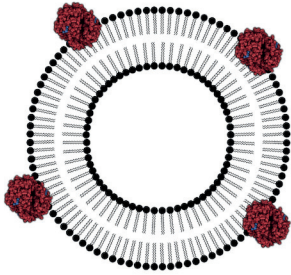

New Vaccine Structures
Incorporating β -Glucan to
Stimulate Dendritic Cells

**New
Diagnostics!**

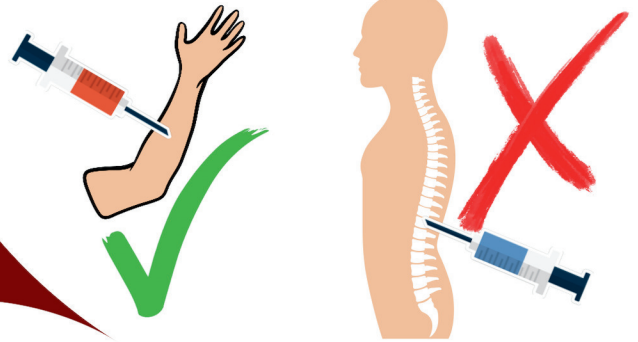

1

**Identifying Novel
Biomarkers on the Surface
of Extracellular Vesicles**

2

**That are Present in Blood, Where
Current Biomarkers Require CSF**

**Analysed Via Simple
and Cheap Clinical Assay**

3

NEXGEN-PD

**Is Just the Beginning, and Heralds the Beginning of
the **Next Generation** of Diagnostics and Treatments
For All Chronic Diseases**
